

1250HS

Spindle counter

High function, heavy duty spindle counter for banded or unbanded currency

The optimisation of cash management calls for specialist experience, resources and truly innovative technology. Across the world, Talaris' cash management solutions are trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity.

Talaris have in excess of 250 patents granted across 26 countries and are world experts in optimal cash handling solutions. 2,300 Talaris professionals, including over 1,000 service and support staff and 130 business partners cover over 100 countries delivering these solutions - wherever money moves.

The 1250HS is a high function, horizontal feed spindle counter for processing banded or unbanded currency. Containing the latest technology from Talaris, the 1250HS is ideal for heavy duty applications where speed and accuracy are paramount.

Improved accuracy

With variable speeds of up to 40 notes per second, the 1250HS was developed in response to the need for heavy-duty processing of poor and good quality notes.

Simple to use, the 1250HS is equipped with three modes of operation:

- 1 Count—provides a continuous count of unknown bundle quantities
- 2 Batch—creates a smaller batch from a large note bundle
- 3 Verify—checks a known quantity in a bundle

All three modes of operation have a 'TOTALS' facility, which accumulates the total number of notes counted. Notes can be counted by value if required.

Easy to use

A simple one touch keypad with a large backlit LCD display aids efficient operation. Auto or manual start can be configured to switch on, in whichever mode is used most frequently. In addition, the default batch or verify quantity can be stored in memory.

Intelligence

An advanced re-pick facility continues to re-pick mint and poor quality notes up to eight times, ensuring maximum efficiency by minimising stoppages. A sliding cover can close over the counter mechanism during operation.

Small and portable

Ideal for organisations where space is at a premium. The compact machine can be used on a table top enabling easy movement between workstations.

Product specification

Processing speed	25-40 notes per second	Weight	Net weight 20 kg
Document size range	50 x 100 mm to 100 x 200 mm	Power supply	230V AC
Capacity	Up to 150 notes	Power consumption	350W
Dimensions (H x W x D)	285 x 345 x 230 mm	Manufacturing standards and approvals	CE, GOST, FCC
